

WARRIORS BASKETBALL ACADEMY
RETURN TO PLAY PLAN

Revised as of 3.26.2021

Here at Warriors Basketball Academy we hope that all of you are staying healthy and safe during this unprecedented time. As we've gradually introduced in-person programming, we are excited to share with you our plans for adapted and reimagined spring and summer camp options.

Through research and feedback from families and parents, guidance and communications from the CDC, state and local health officials, Golden State Warriors team physicians from Kaiser Permanente, the NBA and its Jr NBA Flagship Network, and USAB Youth Development, we have updated our previous "Return to Play" plan to reflect updated health and safety protocols. This information helped us create the framework that will be used to return to more traditional basketball activities.

Please take time to review this guide to see the modifications and steps we are taking to ensure the safest environments for all participants, families and staff. We hope it will provide you with a clearer picture of what to expect in the coming months as we return to the court.
